PREFACE BY THE AUTHOR	9
1 INFLUENCES: SCIENCE IN TRANSITION	15
1.1 From a static to a dynamic world view	18
1.2 Schleiden and Schwann cell theory	23
1.3 Theory of evolution by Darwin and Wallace	25
1.4 German natural philosophy and idealistic morphology	29
1.5 Pringsheim's approach to research	33
2 CAREER: THE LIFE OF NATHANAEL PRINGSHEIM	35
2.1 Childhood: Difficult school years together with Ferdinand Lassalle	38
2.2 Study, important university teachers, and struggle for the doctorate	40
2.2.1 <i>From philosophy to medicine to botany</i>	40
2.2.2 <i>The struggle for the doctorate</i>	46
2.3 Political activities: March 1848	50
2.4 Scientific and personal achievements	52
2.5 Founder of one of the first botanical institutes	58
2.6 The last years in Berlin	63
2.7 Other founder activities	68
2.7.1 <i>Yearbooks for Scientific Botany</i>	68
2.7.2 <i>German Botanical Society</i>	69
2.7.3 <i>Reports of the German Botanical Society</i>	74
2.8 Other members of the Pringsheim family	74
2.8.1 <i>The chemist Albert Ladenburg</i>	78
2.8.2 <i>The physicists in the Pringsheim family</i>	80
<i>Rudolf Ladenburg</i>	80
<i>Ernst Pringsheim</i>	82
<i>Peter Pringsheim</i>	83
<i>Agate Carst</i>	84

2.8.3 <i>The mathematician Alfred Pringsheim</i>	86
2.8.4 <i>The biologist Ernst Georg Pringsheim</i>	88
2.8.5 <i>Victims of the Nazi regime</i>	90
<i>The niece Martha Liebermann</i>	90
<i>The granddaughter Irene Carst</i>	92
3 SCIENTIFIC WORK: ARCHETYPES OF SEXUALITY	99
3.1 Origins of sexuality in biology	102
3.2 Sexuality of plants	106
3.2.1 <i>Higher plants</i>	106
3.2.2 <i>Lower plants</i>	108
3.3 The sexual archetypes of algae	110
3.3.1 <i>Archetype I: Internal fertilization</i>	110
<i>Discovery</i>	110
<i>Green algae</i>	114
3.3.2 <i>Archetype II: External fertilization</i>	118
<i>Prototype pandorina</i>	119
3.3.3 <i>Archetype III: Sexual-asexual generation change</i>	121
<i>The principle of generational change</i>	90
<i>Prototype coleochaetae</i>	123
3.4 Evolution of land plants: The importance of sexuality	125
3.4.1 <i>Variation I: Sexual dominance in mosses</i>	126
<i>Pioneers of terrestrial life</i>	127
<i>Generation change of mosses</i>	127
<i>Apospory</i>	129
3.4.2 <i>Variation II: Asexual dominance in ferns</i>	131
<i>Generation change of ferns</i>	133
3.4.3 <i>Variation III: Protected sexuality in flowering plants</i>	134
<i>The pollen tube: an extraordinary "invention" of nature</i>	137
3.4.4 <i>On the advantage of sexual reproduction</i>	139
3.5 Classification of Pringsheim's work	141

4 MARINE BIOLOGY:**PRINGSHEIM'S LEGACY ON HELGOLAND 145**

- 4.1 The exploration of the sea 148
 - 4.1.1 *Helgoland: a marine biological hotspot* 148
 - 4.1.2 *Other European research stations* 156
 - 4.1.3 *The idea of a German research station* 157
- 4.2 Biological Institute Helgoland 159
- 4.3 North Sea Museum 171
 - The show aquarium* 176
- 4.4 Botanical experimental garden 178
- 4.5 The Nathanael Pringsheim Foundation 181

5 AESTHETICS:**ART FORMS OF MICROSCOPY 185****6 APPENDIX 213**

- 6.1 Documents 215
- 6.2 Cited literature 217
- 6.3 Image sources 223
- 6.4 About the author 226
